ABOUT

Jack is the Business Development Director for King Industries Corporation. He has been instrumental in emergency declarations, while understanding both the technical and administrative sides of project development and funding. His leadership will ensure projects are on schedule, on budget, and have the absolute highest percentage of success. His competency communicating with clients, government agencies, board and all interested parties make him an excellent facilitator and motivator to King Industries Corporation.

EXPERIENCE

Mr. King has over 30 years managing and developing a large scope of projects. He has been focused on the project development for King Industries. He has vast experience in coordinating with outside agencies and answering technical questions. Mr. King also heads up the FEMA 404 Mitigation development for King Industries Corporation. As an effective, hands-on manager, his leadership will ensure that King Industries Corporation exceeds every clients expectations.
